IES strives to provide all students with an excellent experience through high quality programs and student services, ensuring they get the most out of their studies and life in Australia.

Celebrating 20 years in 2018, IES College wants to welcome South American students to our rich student group by offering strong English language Programs to provide the skills and prepare you for Academic English tests, University Programs or further studies in Australia.

ACADEMIC ENGLISH PROGRAM

Students can enhance their English language competency before taking academic English tests or starting at University. A 20-week and 10-week program is available depending on the student’s needs and provides intensive English instruction to improve your reading, writing, listening and speaking skills. You will gain confidence, helping you to participate in class discussions, understand teachers and lecturers, complete written assignments and read long texts.

As well as learning English, you will have access to world-class student services and events, including student counsellors, foundation and university guidance, accommodation assistance and extra-curricular activities. You will join a multicultural campus of almost 1,000 students from more than 40 countries.

PERSON ACADEMIC ENGLISH PREPARATION PROGRAM

Throughout the PTE Preparation Program, students will work with expert teachers on extending their English language skills.

Each week the course will identify and analyse the test items and explicitly instruct students in test taking strategies. Each 5-week block includes a PTE practice test which facilitates individualised and focused feedback for each student. This combination of language development, test taking skills and individualised feedback will support students to undertake the Pearson Test of English Academic.

The PTE Preparation Program allows for weekly enrolments, with new students starting every Monday.
